PROFILE

I began dancing at age two and since that time my love of this art form continues to grow. I loved sharing with others my passion so when I enter a room I always bring positivity with me. I do know, however, that hard work and diligence in pursuing this art are essential and my desire to continue to learn is ever-present. My future plans involve dance and the world of theatre and creative movement. I truly believe that my love of dance, coupled with my work ethic and willingness to learn will help me achieve my goals.
